

11. Log of Appended Documents [table of contents](#)

The Log of Appended Documents (Form 2800) is used to attach copies of source documentation from a recipient's medical record to any CIBMTR data collection form. Submission of the Form 2800 will help the CIBMTR to confirm medical complications, facilitate training, and reduce data queries. Personally identifiable data such as the recipient's name should be removed from the documents. Documents may include the recipient's date of birth and/or Unique ID (CRID). The CIBMTR Center ID number, Unique ID (CRID) and the form and question number(s) referenced should be written in the upper right corner of the de-identified source document. The Form 2800 can only be submitted on paper, not via FormsNet™2.
