

**2017-2018 CIBMTR Master List
List of New Studies by Working Committee**

	WC	Study #	Title	PI	Study Status 03/01/18	Anticipated Study Status 07/01/18	Anticipated Study Status 07/01/19
1	Acute Leukemia	LK18-01	Prognostic Impact of the new European LeukemiaNet Genetic Risk Stratification Categories in Predicting Outcomes for Adults with Acute Myeloid Leukemia undergoing Allogeneic Hematopoietic Stem Cell Transplantation	Antonio Jimenez/ Trent Wang/ Marcos de Lima / Krishna Komanduri	Protocol Pending	Draft Protocol Received	Data File Preparation
2	Acute Leukemia	LK18-02	Comparison of outcomes of HCT with matched-related donor or matched-unrelated donor alloHCT for adults with acute lymphoblastic leukemia	Matthew Wieduwilt / Leland Metheny / Marcos de Lima	Protocol Pending	Draft Protocol Received	Data File Preparation
3	Autoimmune Diseases and Cellular Therapies	AC18-01	Effect of stem cell boost and donor lymphocyte infusion on the incidence of GVHD	James Yoon, Edmund Waller	Protocol Pending	Draft Protocol Received	Analysis
4	Autoimmune Diseases and Cellular Therapies	AC18-02	Prospective Cohort study of Recipients of Autologous Hematopoietic cell Transplant for Systemic Sclerosis	George Georges	Protocol Pending	Draft Protocol Received	Data Collection/Data File Preparation
5	Chronic Leukemia	CK18-01	A personalized prediction model for outcomes after allogeneic stem cell transplant in patients with myelodysplastic syndromes	Aziz Nazha/ Navneet Majhail/ Wael Saber/ Betty Hamilton	Protocol Pending	Manuscript Preparation	Submitted
6	Chronic Leukemia	CK18-02	The impact of somatic mutations on allogeneic transplant in chronic myelomonocytic leukemia	Matthew Mei/ Ryotaro Nakamura/ Raju Pillai	Protocol Pending	Draft Protocol Received	Data File Preparation
7	Chronic Leukemia	CK18-03	Impact of donor age on the outcomes of allogeneic hematopoietic stem cell transplantation for myelodysplastic syndrome	Guru Murthy/ Wael Saber	Protocol Pending	Draft Protocol Received	Submitted
8	Donor Health and Safety	DS18-01	To quantify age-related clonal hematopoiesis in healthy marrow and blood donors that may affect the clinical outcome of recipients following HCT	Todd Druley	Protocol Pending	Draft Protocol Received	Manuscript Preparation

**2017-2018 CIBMTR Master List
List of New Studies by Working Committee**

	WC	Study #	Title	PI	Study Status 03/01/18	Anticipated Study Status 07/01/18	Anticipated Study Status 07/01/19
9	Donor Health and Safety	DS18-02	Factors affecting CD34+ cell yields at subsequent marrow/PBSC collections.	Sandhya Panch/ David Stronecek/ Bipin Savani/ Nirali N. Shah	Protocol Pending	Draft Protocol Received	Analysis
10	Graft Sources and Manipulation	GS18-01	Mismatch in the setting of PT-CY based anti-GVHD prophylaxis: Is a matched related, matched unrelated or haploidentical donor still an issue?	Saurabh Chhabra/ Kehinde Adekola/ Mahasweta Gooptu/ Miguel-Angel Perales/ Alberto Mussetti/Rizwan Romee	Protocol Pending	Draft Protocol Received	Submitted
11	Graft Sources and Manipulation	GS18-02	Impact of racial background on survival following haploidentical donor transplantation with post-transplant cyclophosphamide for adults with hematologic malignancies and comparison with race-specific outcomes following umbilical cord blood transplantation	Scott Solomon/ Asad Bashey	Protocol Pending	Data File Preparation	Submitted
12	Graft Sources and Manipulation	GS18-03	Comparison of Outcomes of Reduced Intensity Transplantation in Lymphoma Patients Using Haploidentical Related Donors vs. Unrelated Cord Blood	Gincarlo Fatobene/ Vanderson Rocha	Protocol Pending	Draft Protocol Received	Data File Preparation
13	Graft Sources and Manipulation	GS18-04	Comparison of Outcomes with Haploidentical and Matched Unrelated Donors for Hematopoietic Stem Cell Transplantation in Myelodysplastic Syndromes	Auro Viswabandya/ Benjamin Tomlinson/ Michael Grunwald/ Hany Elmariah	Protocol Pending	Draft Protocol Received	Data File Preparation
14	GVHD	GV18-01	Comparison of late effects among allogeneic hematopoietic cell transplantation survivors with and without chronic graft-versus-host disease	Catherine Lee/ Daniel Couriel	Protocol Pending	Draft Protocol Received	Analysis
15	GVHD	GV18-02	Comparison of antibacterial prophylaxis strategies and outcomes in allogeneic stem cell transplantation patients with acute graft vs host disease	Whitney Wallis	Protocol Pending	Draft Protocol Received	Data File Preparation
16	GVHD	GV18-03	Impact of chronic graft-versus-host disease on non-relapse mortality and disease relapse in transplant recipients	Vijaya Bhatt/ Stephanie Lee	Protocol Pending	Draft Protocol Received	Data File Preparation

**2017-2018 CIBMTR Master List
List of New Studies by Working Committee**

	WC	Study #	Title	PI	Study Status 03/01/18	Anticipated Study Status 07/01/18	Anticipated Study Status 07/01/19
17	Health Services and International Studies	HS18-01	International collaborative study to compare the prognosis for acute leukemia patients transplanted with intensified myeloablative regimens	Yasuyuki Arai/ Yoshiko Atsuta/ Shingo Yano	Protocol Pending	Draft Protocol Received	Data File Preparation
18	Health Services and International Studies	HS18-02	Racial differences in long term survivor outcomes after allogeneic transplants	Branson Blue/ Navneet Majhail	Protocol Pending	Draft Protocol Received	Data File Preparation
19	Health Services and International Studies	HS18-03	Racial/ethnic disparities in receipt of hematopoietic cell transplantation and subsequent resource utilization in children with acute leukemia	Lena Winestone/ Richard Aplenc/ Kelly Getz	Protocol Pending	Draft Protocol Received	Data File Preparation
20	Immunobiology	IB18-01	Effect of HLA phenotypes on long term GVHD risk	Charlotte Story/ Marcie Riches/ Paul Armistead	Protocol Pending	Protocol Development	Analysis
21	Immunobiology	IB18-02	The impact of HLA class I risk alleles associated with AA Immune pathogenesis on allogeneic transplant outcomes in patients with severe acquired aplastic anemia	Daria Babushok/ Timothy Olson	Protocol Pending	Protocol Development	Data File Preparation
22	Immunobiology	IB18-03	The Effect of HLA Class I Heterozygosity and HLA Supertypes on Outcomes Following Allogeneic Hematopoietic Cell Transplant for Myeloid and Lymphoid Malignancies	Christine Camacho-Bydume/ Katharine Hsu	Protocol Pending	Protocol Development	Analysis
23	Immunobiology	IB18-04	Evaluation of the impact of donor KIR genotype on outcome after unrelated donor transplantation in patients with myelodysplastic syndromes or secondary acute myeloid leukemia	Johannes Schetelig/ Nicolas Kröger/ Marie Robin	Protocol Pending	Protocol Development	Data File Preparation
24	Immunobiology	IB18-05	Imputation of KIR in genome-wide association study and the association of KIR-HLA with outcomes following alloHCT In AML and MDS	Christine Camacho-Bydume/ Lara Sucheston-Campbell/ Stephen Leslie/ Katharine Hsu	Protocol Pending	Protocol Development	Manuscript Preparation

**2017-2018 CIBMTR Master List
List of New Studies by Working Committee**

	WC	Study #	Title	PI	Study Status 03/01/18	Anticipated Study Status 07/01/18	Anticipated Study Status 07/01/19
25	Infection and Immune Reconstitution	IN18-01	Comparison of early (By D+100) Infections between Posttransplantation Cyclophosphamide and other GVHD Prophylaxis	Genovefa Papanicolaou, Celalettin Ustun	Protocol Pending	Draft Protocol Received	Analysis
26	Infection and Immune Reconstitution	IN18-02	Study the Incidence, and impact of C diff infection within 100 days on Transplant outcomes after allogeneic stem cell transplant	Muthalagu Ramanathan, Bipin Savani	Protocol Pending	Draft Protocol Received	Analysis
27	Late Effects and Quality of Life	LE18-01	Survival trends amongst two-year survivors of alloHCT	Prakash Satwani/ Larisa Brogile	Protocol Pending	Draft Protocol Received	Analysis
28	Late Effects and Quality of Life	LE18-02	Return to work or school status in survivors of adolescent and young adult alloHCT	Neel Bhatt/ Rachel Salit	Protocol Pending	Draft Protocol Received	Manuscript Preparation
29	Lymphoma	LY18-01	Outcomes in b cell non-hodgkin's lymphoma patients who underwent autologous stem cell transplantation following rituximab containing conditioning regimens	Deepa Jagadeesh/ Navneet Majhail/ Brian Hill	Protocol Pending	Draft Protocol Received	Submitted
30	Lymphoma	LY18-02	Effect of time to relapse on overall survival in mantle cell lymphoma patients following frontline autologous stem cell transplant	Peter Riedell/ Sonali Smith	Protocol Pending	Draft Protocol Received	Submitted
31	Lymphoma	LY18-03	Does outcome after allogeneic hematopoietic stem cell transplant differ between patients with de novo diffuse large b-cell lymphoma and transformed diffuse large b cell lymphoma arising in the setting of indolent lymphoma	Alex Herrera	Protocol Pending	Draft Protocol Received	Analysis
32	Pediatric	PC18-01	Comparison of TBI vs Non-TBI based regimens for pediatric AML in the modern era	Christopher Dandoy	Protocol Pending	Draft Protocol Received	Submitted

**2017-2018 CIBMTR Master List
List of New Studies by Working Committee**

	WC	Study #	Title	PI	Study Status 03/01/18	Anticipated Study Status 07/01/18	Anticipated Study Status 07/01/19
33	Plasma Cell Disorders and Adult Solid Tumors	MM18-01	Racial discrepancy in clinical outcomes of multiple myeloma patients harboring t(11;14) genetic abnormality	Dharshan Sivaraj/ Amrita Krishnan/ Cristina Gasparetto	Protocol Pending	Manuscript Preparation	Submitted
34	Plasma Cell Disorders and Adult Solid Tumors	MM18-02	Prognostic scoring system of outcomes in patients undergoing autologous stem cell transplantation for Multiple Myeloma	Binod Dhakal/ Saurabh Chhabra/ Natalie Callander/ Aric Hall/ Zhubin Gahvari	Protocol Pending	Draft Protocol Received	Manuscript Preparation
35	Plasma Cell Disorders and Adult Solid Tumors	MM18-03	To compare the outcomes in young patients with multiple myeloma at diagnosis (<50 years) undergoing autologous or allogeneic hematopoietic stem cell transplant with older patients (>= 50): progression-free and overall survival in a case match	Pashna Munshi/ Artur Juczyszyn/ Jan Maciej Zaucha/ David Vesole	Protocol Pending	Draft Protocol Received	Manuscript Preparation
36	Primary Immune Deficiencies, Inborn Errors of Metabolism and Other NMMD	NM18-01	Impact of choice of serotherapy in pediatric stem cell transplantation for non-malignant disease	Anand Prakash/ Donna Wall/ Kristjian Paulson	Protocol Pending	Protocol Development	Analysis
37	Regimen Related Toxicity and Supportive Care	RT18-01	Developing a modified hematopoietic stem cell transplantation-comorbidity index for adolescents and young adults / A Modified Hematopoietic Cell Transplantation-Comorbidity Index (HCT-CI) for Pediatric Recipients of Allogeneic Transplantation	Brian Friend/ Gary Schiller/ Larisa Broglie / Monica Thakar / Mohamed Sorror	Protocol Pending	Draft Protocol Received	Manuscript Preparation
38	Regimen Related Toxicity and Supportive Care	RT18-02	The effect of obesity on outcomes after alternative donor stem cell transplants	Mouhamed Yazan-Abou Ismail/ Gayathri Ravi/ Leland Metheny/ Marcos de Lima	Protocol Pending	Draft Protocol Received	Manuscript Preparation
39	Regimen Related Toxicity and Supportive Care	RT18-03	An analysis of non-infectious pulmonary toxicities in myeloablative total body irradiation vs chemotherapy-based conditioning regimens after allohct for hematologic malignancies	Sagar Patel/ Betty Hamilton/ Navneet Majhail/ Celattin Ustun	Protocol Pending	Draft Protocol Received	Analysis
