

On behalf of the **CIBMTR Late Effects and Quality of Life Working Committee** and the **EBMT Transplant Complications Working Party**, we invite you to submit a proposal for a review article related to **late effects in recipients of HCT**.

The review article proposal can focus on any area related to late effects or survivorship care for pediatric and/or adult survivors of HCT. The review should aim to summarize what is currently available in the literature as well as identify future areas of research need within that topic. The review topic chosen should be novel or not recently addressed.

The following information will be useful when preparing your proposal:

- **Proposal Template:** Please refer to attached
- **Working Committees:**
<http://www.cibmtr.org/About/WhoWeAre/Committees/Working/Pages/index.aspx>
<https://www.ebmt.org/working-parties/transplant-complications-working-party-tcwp>
- **CIBMTR/EBMT publications:**
<http://www.cibmtr.org/ReferenceCenter/PubList/Pages/index.aspx>
https://www.ebmt.org/research/documents?area_category_target_id=All&group_category_target_id=54&event_type_target_id=All&document_type_target_id%5B0%5D=28

Proposals must be submitted to proposals.cibmtr@mcw.edu **ON THE ATTACHED TEMPLATE** by **January 4th** for further consideration.

We will evaluate new proposals based on their scientific merit, feasibility, and the ability to complete the review in a timely fashion.

Please contact [Rachel Phelan \(rphelan@mcw.edu\)](mailto:rphelan@mcw.edu) from the CIBMTR or [Hélène Schoemans \(helene.schoemans@uzleuven.be\)](mailto:helene.schoemans@uzleuven.be) from EBMT for further questions.

Thank you for your continued interest in the CIBMTR/EBMT!
