CIBMTR Center Support:
Delayed Staff Responses February 1st – 19th

Audience: International and Domestic Data Managers and Medical Directors

CIBMTR Center Support may have delayed response times for tickets submitted during the TCT Meetings of ASTCT and CIBMTR, February 1st through February 19th as staff are attending or presenting. As always, you can continue to submit questions and requests via CIBMTR Center Support. Thank you and we look forward to providing a smooth and seamless support experience for your center.

CIBMTR Forms Instruction Manual

Audience: International and Domestic Data Managers and Medical Directors

New Forms Instruction Manuals

The following manuals have been added to the Forms Instruction Manual this past week:

- Neuroblastoma Response Criteria
- Neuroblastoma Pre-Infusion (2026)
- Neuroblastoma Post-Infusion (2126)
- Fanconi Anemia Pre-HCT (2029)
- Fanconi Anemia Post-HCT (2129)

Data Management Guide

The Data Management Guide contains information on center participation and data submission to the CIBMTR and serves as a resource for individuals seeking guidance about forms due, data quality, and the functions of CIBMTR research data processing.

In the next coming weeks, the instructions for the CIBMTR Research ID Assignment (2804) will be moved from the Forms Instruction Manual to the Data Management Guide.

If there are any questions regarding the Forms Instruction Manual or the Data Management Guide, submit a ticket through CIBMTR Center Support.
