

Due to unforeseen circumstance, your center's PASS/FAIL CPI memo for trimester ending August 31, 2019 has been delayed. We anticipate these will go out no later than Friday, October 4, 2019.

Please note, on your automated CPI forms due reports, you will see an IRB expiration date of 'TBD' while we get our new tracking system in place. Once the new system is in place, your IRB date will be listed again on the CPI reports if applicable.

We appreciate your patience while we work on the final steps of CPI to ensure accurate results are given to all centers.

Please direct any questions to Center Support (<https://nmdp.service-now.com/csm>).
