

Changes Coming to How CIBMTR Database Consent is Captured

Audience: *Domestic and International Data Managers and Medical Directors*

Feedback Session Opportunity

The CIBMTR is planning to change how consent to the Research Database Protocol is captured, and we want to know your thoughts!

Currently, the Pre-TED (F2400) and CTED (F4000) forms capture if the patient consented to the Research Database, the consent date (if applicable) and the contact status for CIBMTR future research. Typically, these forms are completed after HCT or other Cellular Therapy resulting in the CIBMTR missing the opportunity to contact patients for studies with pre-HCT/CT surveys.

The CIBMTR is proposing to capture the consent information at the time of FormsNet3 patient registration (completion of Form 2804) by utilizing a new consent tool.

We are hosting two sessions to request your input and feedback regarding this new process. We want to understand how these changes will affect your workflow and if there are any unintended negative impacts that should be mitigated.

The two sessions will be hosted on the following dates. Please register for one session via the links below if you are interested in participating.

Wednesday, October 7, 2020 at 1:00 – 1:45 pm CDT (Registration open until 9/30/20)

Monday, October 12, 2020 at 3:30 – 4:15 pm CDT (Registration open until 10/5/20)

Once registered, you will receive a calendar invite five days prior to the session with further details.

Should you need to cancel, please email dmattila@nmdp.org and adraxler@nmdp.org

CIBMTR Forms Instruction Manual

Audience: *International and Domestic Data Managers*

Forms Instruction Manual Updates

The following sections of the Forms Instruction Manual have been updated this past week.

- Pre-TED (2400)
- MDS Pre-Infusion (2014)
- Fungal Infection Pre-Infusion (2046)
- Cellular Therapy Essential Data Pre-Infusion (4000)
- Appendix J: Reporting Comorbidities

For an overview of the updates, review the Manual Updates table at the bottom of the [Getting Started](#) page. Please contact the [CIBMTR Center Support](#) if there are any questions.
