

NEW Pre-TED (Form 2400) Requirement *All autologous transplants*

On Wednesday, May 13, 2015, the CIBMTR will start requiring centers to complete a Pre-TED Form (Form 2400) for all autologous transplant recipients, whether or not they consent to have their data used in research. The release of the revised CRID Assignment Form (Form 2804) and new Indication Form (Form 2814) in FormsNet3 on Tuesday, May 12, 2015 support this change.

Attached below is the memo sent on March 30, 2015 from Mary M. Horowitz, MD, MS, Chief Scientific Director, CIBMTR and Dennis Confer, MD, Associate Scientific Director, CIBMTR announcing this change.

If you have any questions about the upcoming release, please contact Marie Matlack at mmatlack@nmdp.org or Janet Brunner-Grady at jbrunner@mcw.edu.

[Memorandum: March 30, 2015](#)

Sincerely,
CIBMTR Data Operations
