

Revised Forms are now available in FormsNet3

The CIBMTR is excited to announce that a new set of revised forms have been released and are now in production.

Revised forms include:

Forms

2100 R5 - Post-HCT Follow-Up Data Form

2500 R2 - Recipient Eligibility Form

2540 R1 - Tepadina Supplemental Data Collection Form

2541 R1 - Inotuzumab Ozogamacin Supplemental Data Collection Form

These forms have been revised to ensure that the forms are capturing currently relevant data, particularly where new definitions or tests have been accepted for use in the field. In addition, two new forms, Tepedina Supplemental Data Collection Form and Inotuzumab Ozogamacin Supplemental Data Collection Form, have been released. These two forms are specific to CIBMTR studies and will not be required for all CRIDs.

The blank forms are available on the [Data Collection Forms page](#) of the CIBMTR website. If your center has questions regarding the forms please contact cibmtrformfeedback@nmdp.org.

The corresponding [Forms Instruction Manual](#) sections for these forms are in progress and will be available in the CIBMTR Forms Instruction Manual in the coming weeks. If you have any questions or comments about the manuals, please send them to: CIBMTRFormsManualComments@nmdp.org.

If you have any other questions, please contact Tiffany Hunt, cibmtrformfeedback@nmdp.org.

Sincerely,
Data Operations
