

Spring Quarterly Release: Form Pairings Announcement

As [previously communicated](#), the next FormsNet3 forms release is planned for 9 PM (CDT) Friday, May 8, 2020.

During the revision process, changes were made to forms with the intent that they would be completed and paired together. On Friday, May 8th, the following updates will be made on the center's behalf to maintain data integrity and quality.

If the form is currently in DUE status:

- Pre-TED Form (2400) and Disease Classification Form (2402)
 - 2400 forms with 2402 form started or completed - will remain as R6 and **not** update to the new R7
 - 2402 forms with 2400 form started or completed - will remain as R4 and **not** update to the new R5
- Myelodysplastic Syndrome Pre-Infusion Form (2014) - will remain as R3 and **not** update to the new R4
- Myelodysplastic Syndrome Post-Infusion Form (2114) – if the primary disease is “Myeloproliferative Neoplasms”, the 2114 form will be converted to the new MPN Post-Infusion Form (2157)
- Recipient Eligibility Form (2500) - will remain as R3 and **not** update to the new R4

No action is required by the center at this time.

If you have any questions or concerns regarding this announcement, please contact cibmtr-form-feedback@NMDP.ORG.

Sincerely,
Data Operations
