Date of HSCT for which this form is being completed:

		2	0		
Month	Day	Year	Year		

HSCT type: autologous allogeneic, unrelated allogeneic, related syngeneic (identical twin)

Product type: marrow PBSC cord blood other product, specify: _____

This form must be accompanied by Form 2000 – Recipient Baseline Data. All information in the box above, including the date, should be identical with the corresponding Form 2000. Information should come from an actual examination by the Transplant Center physician, or the physician who is following the recipient pre-HSCT, or abstraction of the recipient's medical records.

Questions followed by the book symbol indicate additional information necessary to complete the question is referenced in the forms instruction manual.

If this is a report of a second or subsequent transplant, check here and continue with question 42.

Disease Assessment at Diagnosis

1. What was the date of onset for the first Multiple Sclerosis (MS) symptom(s)? date unknown

Month	Day	Year	Year				

2. What was the date of diagnosis of MS? date unknown

Month	Day	Year	Year				

3. Are any of the recipient's family members also affected with MS?

- 1 yes
2 no
3 unknown

Specify the family members:

4. 1 yes 2 no 3 unknown Monozygotic twin
5. 1 yes 2 no 3 unknown Dizygotic twin
6. 1 yes 2 no 3 unknown Other first degree relative (sibling, parent, child)
7. 1 yes 2 no 3 unknown Second degree relative (grandparent, aunt, uncle, first cousin)
8. 1 yes 2 no 3 unknown Other relative →

9. Specify relationship: _____

Laboratory Studies at Diagnosis

Specify results of tests performed prior to any first treatment given for MS.

10. Was the diagnosis of MS corroborated by laboratory or radiological test results?

- 1 yes
2 no
3 unknown

Specify which test measures indicated MS:

11. 1 yes 2 no 3 unknown CSF oligoclonal bands present
12. 1 yes 2 no 3 unknown Elevated IgG index
13. 1 yes 2 no 3 unknown MRI brain lesions consistent with MS

Pre-HSCT Treatment for Multiple Sclerosis

14. Did the recipient receive any disease-modifying treatments between the time of diagnosis and prior to mobilization for stem cell collection (or prior to the preparative regimen if mobilization was not done)?

- 1 yes → Continue with table below
- 2 no → Continue with question 42

15. Specify the date the first disease-modifying therapy started:

Month Day Year

Indicate all treatments for MS that the recipient received prior to mobilization for stem cell collection (or prior to the preparative regimen if mobilization was not done):

16. 1 yes 2 no 3 unknown Alemtuzumab (Campath)
17. 1 yes 2 no 3 unknown Azathioprine (Azasan, Imuran)
18. 1 yes 2 no 3 unknown Belimumab (LymphoStat-B)
19. 1 yes 2 no 3 unknown Cladribine (2-CdA, Leustatin)
20. 1 yes 2 no 3 unknown Corticosteroids (chronic use, not to treat acute relapse)
21. 1 yes 2 no 3 unknown Cyclophosphamide (CTX, Cytoxan, Neosar)
22. 1 yes 2 no 3 unknown Daclizumab (Zenapax, anti-CD25)
23. 1 yes 2 no 3 unknown Fingolimod (FTY720)
24. 1 yes 2 no 3 unknown Fumarate (oral) (BG00012)
25. 1 yes 2 no 3 unknown Glatiramer acetate (Copaxone) [previously copolymer-1]
26. 1 yes 2 no 3 unknown Immune globulin (IVIG, Gamimune, Gammagard)
27. 1 yes 2 no 3 unknown Interferon beta-1a (Avonex, Rebif)
28. 1 yes 2 no 3 unknown Interferon beta-1b (Betaseron)
29. 1 yes 2 no 3 unknown Laquinimod
30. 1 yes 2 no 3 unknown Methotrexate (MTX, Folex)
31. 1 yes 2 no 3 unknown Mitoxantrone (Novantrone)
32. 1 yes 2 no 3 unknown Natalizumab (Tysabri, Antegren)
33. 1 yes 2 no 3 unknown Mycophenolate mofetil (MMF, Cellcept)
34. 1 yes 2 no 3 unknown Rituximab (anti-CD20, Rituxan, MabThera)
35. 1 yes 2 no 3 unknown Sirolimus (Rapamune)
36. 1 yes 2 no 3 unknown Tacrolimus (FK 506, Prograf)
37. 1 yes 2 no 3 unknown Teriflunomide (oral) (HMR1726)
38. 1 yes 2 no 3 unknown Blinded randomized trial agent → 39. Specify trial agent: _____
40. 1 yes 2 no 3 unknown Other treatment → 41. Specify other treatment: _____

Baseline Assessment for MS Performed at the Transplant Center

Information reported in this section should come from the recipient's first evaluation performed at the transplant center. For autologous HSCT recipients, the baseline assessment is typically ≤ 4 weeks prior to mobilization for stem cell collection.

42. Date of baseline evaluation:

Month Day Year

43. Specify the number of relapses of MS during the 1-year period prior to the baseline assessment: number unknown

44. Specify the disease course during the 2-year period prior to the baseline assessment:

- 1 relapsing remitting
- 2 secondary progressive
- 3 primary progressive
- 4 progressive relapsing
- 5 unknown

Stem Cell Mobilization for Autologous HSCT

This section records pre-mobilization information for autologous HSCTs only; if this report is for an allogeneic HSCT, or if the autologous HSCT did not use mobilization, check here and continue with question 79.

74. Did the recipient receive treatment, prior to any stem cell harvest, to enhance the autologous product collection for this HSCT?

- 1 yes →
2 no

Specify treatment(s): (select all that apply)

75. 1 yes 2 no Cyclophosphamide

76. 1 yes 2 no Growth factors →

Report details on form 2006 – HSCT Infusion

77. 1 yes 2 no Other mobilization chemotherapy →

78 Specify other chemotherapy:

Most Recent Disease Assessment Prior to the Start of the Preparative (Conditioning) Regimen

Information for this section should come from the most recent evaluation performed ≤ 2 weeks prior to the preparative regimen. If the recipient was not evaluated prior to the preparative regimen, check here and continue with the signature lines at question 104.

For recipients of autologous cells who underwent mobilization for stem cell collection, a second disease assessment is required prior to the preparative regimen.

79. Date of evaluation prior to the preparative regimen:

<input type="text"/> Month	<input type="text"/> Day	<input type="text"/> <input type="text"/> Year
-------------------------------	-----------------------------	---

80. Specify the number of relapses of MS that occurred after the start of mobilization and the start of the preparative regimen:

number unknown

81. Did the recipient experience worsening disability or continuous progression of MS between mobilization and the start of the preparative regimen?

- 1 yes
2 no
3 unknown

82. Was a MRI scan of the brain conducted as part of the disease assessment prior to the preparative regimen (not including the baseline MRI reported at question 67)?

- 1 yes →
2 no
3 unknown

83. Date of most recent MRI performed prior to the preparative regimen:

<input type="text"/> Month	<input type="text"/> Day	<input type="text"/> <input type="text"/> Year
-------------------------------	-----------------------------	---

84. Does the radiology report include a comparison with the baseline MRI?

1 yes → **Continue with question 87**

2 no → **Complete questions 85–89, then continue at question 93.**

85. Are T2 lesions present on the MRI?

- 1 yes →
2 no

86. Specify the number of T2 lesions: number unknown

87. Was gadolinium contrast used for this assessment?

- 1 yes →
2 no

88. Are gadolinium-enhancing lesions present on the MRI?

- 1 yes →
2 no

89. Specify the number of gadolinium-enhancing lesions: number unknown
