Description of Revision	Document/Section(s) Affected	Effective Date
Updated language to reduce language level and increase subject understanding	All consent forms	07/09/2020
Section 4: Confidentiality and Use of Information language expanded	Adult Donor Consent Form Adult Allogeneic Recipient; Adult Autologous Recipient; Adult Marrow Toxic Injury; Adult CMS Studies	07/09/2020
Section 5: Cost and Reimbursement language expanded	Adult Donor Consent Form Adult Allogeneic Recipient; Adult Autologous Recipient; Adult Marrow Toxic Injury; Adult CMS Studies	07/09/2020
1. Overall edited to reduce redundancies and create better flow of information in the protocol. 2. Removed references to data being collected on forms as data may be collected by other modes. 3. Substituted the generic “patient” to describe all individuals who received a HC transplant, cellular therapy or treatment for marrow toxic injury. 4. “Recipient” was only used when “patient” would not make sense in the context of the sentence. 5. Substituted the “participant” for “patient and donor” when referring to both. 6. Substituted “treatment center” for “transplant center.” 7. Substituted “healthcare record” for “medical record.” 8. Deleted all references to regenerative medicine and used the more generic “cellular therapy.”	Protocol: throughout the entire protocol.	07/30/2019

RECORD OF REVISIONS:

Center for International Blood and Marrow Transplant Research (CIBMTR): Protocol for a Research Database for Hematopoietic Cell Transplantation, Other Cellular Therapies and Marrow Toxic Injuries (IRB-2002-0063)

Broke Section 1.2 into two distinct sections – 1.2 for Medical College of Wisconsin and 1.3 for CIBMTR	Protocol: Section 1	07/30/2019
Added a statement to clarify that participants only need to sign one consent form even if they are receiving multiple subsequent treatment that covered under this protocol.	Protocol: Section 2.4	07/30/2019
Added that centers can delegate review of the protocol to the NMDP IRB through an IRB Authorization Agreement. Added that protocol and consent forms can be found on the CIBMTR website.	Protocol: Section 3	07/30/2019
Updated to include process for 2018 Common Rule Requirements.	Protocol: Section 3.1	07/30/2019
Added product data collection.	Protocol: Section 4.3	07/30/2019
Added section on patient reported outcomes.	Protocol: Section 4.5	07/30/2019
Administrative IRB approval for using patient identifiers when linking data with external collaborators was switched from the IRB chair to IRB administrator. This section was also rewritten at a higher level with examples provided, whereas the previous version listed all instances of collaboration with other registries.	Protocol: Section 5	07/30/2019
Last paragraph of section rewritten at a higher level with examples of types of collaboration and types of data that may be exchanged.	Protocol: Section 6	07/30/2019
Section 7.2 was broken into two distinct sections – 7.2 How Requests are Reviewed/Approved and 7.3 for How Data Sets are Prepared and Shared	Protocol: Section 7.2 and 7.3	07/30/2019
Responsibility for ensuring that research studies using data from Research Database fall within the scope of the protocol and consent from was switched from an administrative review by the IRB chair to the CIBMTR Observational Research group.	Protocol: Section 7.2	07/30/2019
Statement was added about what happens to a patient's data when he/she withdraws from the protocol.	Protocol: Section 8	07/30/2019
The patient's preferred language was added to the contact information that is collected if a patient agrees to provide contact information to the CIBMTR.	Protocol: Section 9	07/30/2019
Statement was added that studies that require direct contact with the patient by CIBMTR will be conducted under the CIBMTR protocol *Research Database Protocol for Patient Reported Outcomes.*	Protocol: Section 9	07/30/2019
Added that donors will also be assigned a Global Registry Identifier for Donors (GRID) when they join the NMDP Registry. The GRID will be used to track donor information in the Research Database.	Protocol: Section 10	07/30/2019
Changed title of consent form: Adult <u>Unrelated</u> Donor Research Consent Form	Unrelated Donor Consent Form:	07/30/2019
Section 2, beginning of second paragraph added: <u>Your donation-related data may be shared with researchers, collaborating organizations, or other registries outside the CIBMTR. The data that is shared will not include any</u>	Unrelated Donor Consent Form:	07/30/2019

information that could identify you.		
Section 3, second to last sentence in paragraph added: You will not directly receive any results generated from this research.	Unrelated Donor Consent Form:	07/30/2019

If you want your child's research information released to an insurer, medical care provider, or any other person not connected with the research, you must provide consent to allow the researchers to release it. To expand research, it is helpful for researchers to share information they get from studying health information. They do this by putting the information into one or more scientific databases, where it is stored along with information from other studies. Researchers can then study the combined information to learn even more about health and disease. If you agree to allow your child take part in the Research Database, some of your child's health information may be placed into scientific databases that can be accessed by researchers outside the CIBMTR. New Section VIII with the following wording: PERMISSION TO CONTACT FOR FUTURE CIBMTR RESEARCH STUDIES Do you agree to give the CIBMTR permission to contact you in the future to tell you about research studies for which you are eligible? These studies are different from the studies that use your medical data. These studies would involve you directly, for example, asking you to complete a survey. You may decide if you want to participate in a specific study when you are contacted. By checking the "AGREE" box below, you are only agreeing that the CIBMTR can contact you to tell you about the study. Due to the need to follow-up with you after your transplant, please tell your transplant center if your contact information changes. If the contact information on file is no longer valid, it might be necessary to use an internet-based search service to find you. By agreeing to be contacted for future studies, you authorize the CIBMTR to use such a service to search public and non-public information only for the purpose of trying to locate you. ☐ I AGREE to allow CIBMTR to contact me about future studies. ☐ I DO NOT want CIBMTR to contact me about future studies.	**Recipient Consent Forms (Section VIII):** Adult Allo Recipient; Adult Auto Recipient	07/30/2013
