

Hematologic complete remission (CR) must meet **all** of the following criteria for at least four weeks:

- < 5% blasts in the bone marrow
- Normal maturation of all cellular components in the bone marrow
- No extramedullary disease (e.g., central nervous system or soft tissue involvement)
- ANC of > 1,000/ μ L
- Platelets \geq 100,000/ μ L
- Transfusion independent

Include recipients with chromosomal or molecular abnormalities who otherwise meet all criteria of CR. Additionally, some clinical judgment is required for evaluating whether a recipient meets the CR criteria, specifically neutrophil, platelet, and transfusion parameters. If a recipient does not meet these specifications, the underlying cause should be assessed; if the cause for not meeting one of these parameters is felt to be due to a reason other than underlying leukemia, such as renal insufficiency, hemolysis, infection, or drug-related causes, the disease status may be reporting as “complete remission.” If the cause for not meeting the parameters is judged to be leukemia-related, the disease status should be reported as “not in complete remission.”

If the recipient is in hematologic complete remission, check “complete remission.” If the recipient did not achieve CR, indicate “not in complete remission.”

Question 96: Date assessed

Enter the date of the most recent assessment establishing disease status within the reporting period. The date reported should be that of the most disease-specific assessment within a reasonable timeframe of the date of contact (approximately 30 days). Clinical and hematologic assessments include pathological evaluation (e.g., bone marrow biopsy), radiographic examination (e.g., X-ray, CT scan, MRI scan, PET scan), and laboratory assessment (e.g., CBC, peripheral blood smear), in addition to clinician evaluation and physical examination. Enter the date the sample was collected for pathological and laboratory evaluations, the date the imaging took place for radiographic assessments, or the date of physical examination.

If the exact date is not known, use the process for reporting partial or unknown dates described in [General Instructions. Guidelines for Completing Forms.](#)
