

## List of 2021 New Studies by Working Committee

Working Committee	Study #	Study Title	PI
Acute Leukemia	LK21-01	Impact of measurable residual disease status on outcomes of acute myeloid leukemia and patients 18-65 years old in first complete remission undergoing allogeneic hematopoietic cell transplantation	Firas El Chaer; Maria Queralt Salas; Abu-Sayeeef Mirza
Cellular Immunotherapy for Cancer	CT21-01	Outcomes of elderly patients receiving CD-19 directed CAR-T therapy for B-cell lymphomas	Sayeeef Mirza; Sreekanth Gattu; Chitra Hosing
Chronic Leukemia	CK21-01	Haploidentical Donor Transplantation versus Matched Donor Allogeneic Hematopoietic Cell Transplantation Outcomes In Patients With Myelofibrosis	Tania Jain; Queralt Salas
Graft vs Host Disease	GV21-01	Racial, Ethnicity and Socioeconomic Disparity in Outcome of Patients with Chronic Graft versus Host Disease	Nosha Farhadfar; John R. Wingard; Zeina Al-Mansour; Stephanie Lee
Graft vs Host Disease	GV21-02	Determinants of successful discontinuation of immune suppression following allogeneic hematopoietic cell transplantation: A validation study	Joseph Pidala; Brent Logan; Michael Martens
Immunobiology	IB21-01	Effect of HLA Evolutionary Divergence on Survival and Relapse Following Allogeneic Hematopoietic Cell Transplant	Christine Camacho-Bydume; Diego Chowell; Katharine C. Hsu
Late Effects and Quality of Life	LE21-01	Risk of subsequent neoplasms (SN) in patients with post-transplant cyclophosphamide (PTCy) use for Graft-versus-host disease (GVHD) prophylaxis	Ana Alarcon Tomas; Miguel-Angel Perales; Shahrukh K. Hashmi
